CONVICT FAILS TO MAKE HIS ESCAPE

An unsuccessful attempt at escape from the state prison was made late Thursday night by Dick Merrill, who is serving twenty years there for burglary. He was intercepted and taken back to his cell by Guard Charles Davies, who saw him as he was attempting to scale the wall of the prison with the aid of a drain pipe.

As a result of his attempt to get away, Merrill will be changed from a first-class to a third-class prisoner, which takes away all his privileges.

It was evident that Merrill had been planning his escape for some time. Several days ago he asked to be excused from work and sent to the hospital, saying that he was ill. His request was denied after Dr. H. Z. Lund had examined him and recommended that he be sent back to work. This was done and Merrill's next move was on Thursday evening, when he asked to be excused from

YELLOW BLISTERS ALL OVER BODY

Itched and Hurt So Could Not Rest Day or Night. Nearly Tortured to Death. Cuticura Soap and Cuticura Ointment Cured.

Hollens, New Mexico.—"Our little boy first broke out in little yellow blisters about the size of pin heads and they itched and hurt so badly he could not rest day or night. In a few days they were running sores and kept spreading until they were as large as a dollar. He had them all over his body and was nearly tortured to death, as they hurt him so badly he could hardly sleep. He would scratch and cause great sores all over his face and legs.

"We tried several highly recommended remedies but they didn't seem to help him at all. Nothing seemed to do any good until we got Cuticura Soap and Ointment. We didn't use the Cuticura Soap and Ointment but a short time before he was completely cured without a scar." (Signed) Mrs. J. H. Northcutt, Nov. 22, 1912.

Not only are Cuticura Soap and Ointment most valuable in the treatment of eczema and other distressing eruptions of skin and scalp, but they are also most effective in the treatment of pimples, blackheads, red, rough skins, itching, scaly scalp, dandruff, dry, thin and falling hair, chapped hands and shapless nails. A single cake of Cuticura Soap (25c) and box of Cuticura Ointment (50c) are often sufficient when all else has failed. Sold by druggists and dealers everywhere. Liberal sample of each mailed free, with 32p. Skin Book. Address postcard "Cuticura, Dept. T, Boston."

Men who shave and shampoo with Cuticura Soap will find it best for skin and scalp.

EDWARDS READY TO LEAVE HOSPITAL

David Edwards, the Pinkerton detective, who was shot by blackmailers while impersonating Leroy Eccles three weeks ago, will be able to leave the hospital within the next few days. He is now gaining strength rapidly, having all but recovered from the effects of the various gunshot wounds inflicted upon him. Not all of the missiles were removed from the detective's body, and it is probable that some of the bearings will remain imbedded in his flesh for life.

The detective is eager to leave the hospital, that he may once more take up the search for the blackmailers. While he obtained no information of particular value as the result of his contact with them on West Seventh street, Edwards is anxious to be avenged for the murderous assault and also to earn at least a portion of the liberal reward that is now offered.

NEW FARM LANDS IN EASTERN UTAH

Vernal, Utah, Nov. 29.—One of the important irrigation projects of Utah county and one of the former Utah reservation is fast nearing completion. It is the Ouray valley project. Already the left arm of the big canal has begun pouring its waters over the rich virgin soil and eighteen teams and a large force of men are crowding the right arm of the canal construction work as rapidly as possible and have completed an additional ten thousand acres of land. The right arm of the canal will not be completed before the first of next May, but the farms under this branch will be able to mature crops next year.

The Ouray valley project embraces 30,000 acres of the most desirable quality of soil in Utah. Its elevation is 4700 feet, or about 300 feet lower than Vernal. It is located approximately ten miles due north of Ouray, the junction of the Duchesne and Green rivers. The soil is of the warm, sandy loam type.

Land values under this project, as shown by some recent transfers, range at about \$12 per acre, including water rights proved up to the present status of canal building. The Ouray valley lies directly in the path of the Moffat railroad survey.

The completion of the Ouray valley project will add to the state of Utah an acreage larger than the Ashley valley with Jensen included, at an elevation lower and a drainage area offering few difficulties to the homesteaders.

ENGLISH SUFFRAGISTS TO CARRY OUT PLAN

London, Nov. 29.—A number of suffragists, members of the various political parties, have made an arrangement which, if successfully carried out, will ensure a majority for women's suffrage in the next parliament.

They have concentrated in the hope of arranging the organization of suffragist electors in the constituencies before the general election. The idea is that these electors should be put "suffrage first," in other words, that they should inform the candidates that their votes would be given in the interest of women's suffrage. Lord Lytton and Pethick Lawrence are both in favor of the plan.

TAKE SALTS TO FLUSH KIDNEYS

Eat less Meat if you feel Back-
ache or have Bladder
trouble.

Meat forms uric acid which excites and overworks the kidneys in their efforts to filter it from the system. Regular eaters of meat must flush the kidneys occasionally. You must relieve them like you relieve your bowels, removing all the acids, waste and poison, else you feel a dull misery in the kidney region, sharp pains in the back or sick headache, dizziness, your stomach aches, tongue is coated and when the weather is bad you have rheumatic twinges. The urine is cloudy, full of sediment; the channels often irritated, obliging you to get up two or three times during the night.

To neutralize these irritating acids and flush off the body's urinous waste get about four ounces of Jad Salts from any pharmacy; take a tablespoonful in a glass of water before breakfast for a few days and your kidneys will then act fine and bladder disorders disappear. This famous salts is made from the acid of grapes and lemon juice, combined with lithia, and has been used for generations to clean and stimulate sluggish kidneys and stop bladder irritation. Jad Salts is inexpensive, harmless and makes a delightful effervescent lithia-water drink which millions of men and women take now and then, thus avoiding serious kidney and bladder diseases. SPECIALIST NAMED BY STATE SCHOOL

Aside from routine business attended to at the meeting of the board of trustees for the state school for the deaf and blind yesterday afternoon, Dr. Leroy Pugmire was appointed to the position of eye, nose, throat and ear specialist.

Superintendent Frank M. Driggs reported the number of students in the school to be 153, of whom 31 are blind. This is a larger enrollment than the school had last year. Mr. Driggs also reported that the building of the hospital at the school is progressing and that it will be ready for use by the first of next year.

EX-AMBASSADOR IS VERY BUSY MAN

The Right Honorable James Bryce, when he left the British Embassy at Washington, announced that he was retiring from public life. That may have been true, but like many another retired British statesman, he is finding that he is busier in his retirement than he was as an ambassador.

Since his return from his around-the-world trip Mr. Bryce had not many days to himself. He did for a few weeks go into retirement at his modest country home, "Hindale," Forest Row, Sussex, but this retirement was almost entirely taken up in writing, for Mr. Bryce is certain to give the public something about the countries he visited after leaving America. His real work, however, however, will doubtless be, as one writer has aptly put it, "to express the needs of the community upon the broader sides of life." Since his return Mr. Bryce has delivered a number of addresses on a great variety of subjects. As popular as he was in America as a speaker, he is likely to become quite as popular in his own country.

The former ambassador to America is not alone in his practice of devoting his talents to the enlightenment and services of his country, after his retirement from active work. Another of these is Sir Edward Fry, who a few days ago attained the age of eighty-six. It is twenty-one years since Sir Edward resigned his seat as a Lord Justice of the Court of Appeal, and in that time he has served in many useful capacities, not the least of which has been as one of England's representatives in the peace conferences at The Hague.

GOOD PUZZLE TO WORK OUT

Occupation In Enforced Idleness Is Good Test of One's Knowledge of the Bible.

Evidently the matter of occupation when one is confined indoors is a problem to the Swiss as well as to other people. The Bonne Revue comes forward with an answer to the question: "What are we to do indoors?" Instead of bemoaning the inclement weather it says people should solve the following problem:

Divide the number of Job's camels before they were captured by the Chaldeans by the number of men sent to take Jeremiah out of the dungeon; add to the quotient the number of lords entertained at Balthazar's feast. Subtract from the sum the number of just persons who could have saved Sodom. Multiply by David's age when he commenced to reign. Divide by the number of Philistines that Samson slew with the ass's jawbone. Subtract the number of Solomon's songs; multiply by the number of days during which Job did not speak to his friends. Subtract the number of fish taken in the miracle of Jesus fishing. Add to the result the number of prophets hidden by Abdias. Subtract the number of ungrateful lepers healed by Jesus, and you will have a mysterious figure contained in the Apocalypse.

TWENTY WORDS IN THE LEAD

Cleveland Lawyer's New Stenographer Kept Well Ahead of Him When He Dictated.

A Cleveland corporation lawyer has a new stenographer—the second new one in a week. Strange to say, he didn't discharge the first one because she was incompetent, but because she was too good. Let him tell it. "This girl came to me well recommended, and when I dictated a test letter, I found her extremely rapid and accurate. So I employed her on the spot. She fell right in with the work, and I decided that I had found a treasure. But on the third day she gave me a shock.

"I was dictating an opinion in a complicated infringement suit, and it was very important that it should be accurate in every word and phrase. This was the third draft I had written, in fact. At one place I interrupted myself and said to the stenographer:

"Am I speaking too fast for you, Miss Jackson? Are you getting my words down correctly?"

"Oh, I'm getting them all right," she answered, smiling. And you don't speak nearly as fast as I can take. I'm about twenty words ahead of you now!"

"There's such a thing as being too good,"—Cleveland Plain Dealer.

ONE OF THE LATEST HOOPS.

Taffeta, shaded rose and green was used in this quaint little gown. The baby waist is simplicity itself, the only trimming being a frill of cream with gauze.

The wide flounces on the skirt are cut slightly circular, but the shorter concave edge is wired and bound with the taffeta, while the longer edge is gathered around the top, giving a cup shape to both flounces. The skirt itself is plain with rounded edges, hemmed by hand.

TRADE UNIONISTS GOOD MONEY RAISERS

London, Nov. 29.—While the Duke of Westminster and his influential committee of titled and distinguished men have been raising something less than \$50,000 for their half-million fund to train British athletes for the next Olympic Games at Berlin, the trade unionists of the country have, with out any great effort, raised over a quarter of a million dollars for the wives and children of the Dublin strikers, besides sending them several ship loads of provisions and coal. At the same time another big fund has been raised for the widows and orphans of the recent Welsh colliery disaster. It all goes to show that while the British people are still willing to subscribe to funds raised for practical and charitable purposes, such matters as the Olympic games will not induce them to part with their money, even when the plan is backed by dukes and other members of the nobility.

The raising of the Dublin and Welsh funds, however, is taken in another evidence of the growing wealth and close co-operation of the trades unionists of the country. Much of the money has come from the workers and their organizations, which had only just completed a fund of much
